The roots of the Fèvre family run back several centuries ago in the heart of the Chablis vineyards, they have been able to establish their family tree back to 1745! Their vineyards are the fruit of the dedicated labour of the previous generations. Nowadays, the family property consists of 40 hectares, of which a large third within the Grand Cru and Premiers cru vineyards. Thanks to the knowledge and the experience acquired in different areas, in France as well as abroad, Nathalie and Gilles endeavour to develop and enrich the inheritance entrusted to them.
